

ZONEAFSTANDS OPSLAGSVÆRK

KÆRE CHAUFFØR

Dette opslagsværk kan bruges til at beregne zoneafstand ved salg af enkeltbilletter/kontantbilletter på rejsekortudstyr. Der findes to versioner:

① **En version, der egner sig til print**

Print fx siderne med de zoner, du kommer igennem på din rute.

② **En version, du kan søge i**

Hold 'Ctrl' inde og tryk på 'f' for at åbne søgefeltet. Skriv nummeret eller navnet på den relevante zone, og tryk på 'enter'. Der er en lettilgængelig søgefunktion på de fleste mobiltelefoner.

SÅDAN FINDER DU PRISEN

1. Find zoneafstandskortet for rejsens start. Startzonen er her rød.
2. Følg ruten/ruterne på zonekortet til rejsens slutzone.
3. Læg mærke til, om du kommer igennem en farvezone undervejs, som er dyrere (længere væk) end den rejsen slutter i.
4. Den dyreste zone svarer til det antal zoner, der skal købes billet til.

HUSK, NÅR DU BRUGER OPSLAGSVÆRKET

Samme rejse – forskellige priser (princippet om fjernestliggende zone)

Med det nye zoneprincip, kan der være prisforskel på rejsen ud og hjem. Det sker, fordi kunden altid skal betale for den zone, der ligger længst væk fra startzonen. Det sker typisk, hvis kunden rejser via en større by til en mindre by, som ligger tættere på startzonen (set på et kort vil rejsen ofte ligne et L eller et V). Tilfælde med forskellige priser ud og hjem er et vilkår ved det landsdækkende zoneprincip.

EKSEMPEL 1:

UDREJSE

Startzonen er 4305 (Trige), slutzonen er 4330 (Silkeborg), og rejsen går via zone 4301 (Aarhus). Silkeborg, som ligger 7 zoner fra Trige, er den zone, der ligger længst væk på rejsen, da Aarhus kun ligger 3 zoner fra Trige. Kunden skal betale for 7 zoner.

HJEMREJSE

Startzonen er 4330 (Silkeborg), slutzonen er 4305 (Trige), og rejsen går igen via zone 4301 (Aarhus). Rejser kunden fra Silkeborg til Trige, er Aarhus den zone, der ligger længst væk på rejsen – nemlig 9 zoner. Kunden skal betale for 9 zoner.

EKSEMPEL 2:

UDREJSE

Startzonen er 4314 (Tirstrup Lufthavn) og slutzonen er 4380 (Randers). Randers ligger 7 zoner væk fra Tirstrup Lufthavn. Kunden skal betale for 7 zoner.

HJEMREJSE

Startzonen er 4380 (Randers) og slutzonen er 4314 (Tirstrup Lufthavn). Rejser kunden fra Randers til Tirstrup Lufthavn, er 4392 (Kolind) den zone, der ligger længst væk på rejsen – nemlig 8 zoner. Kunden skal betale for 8 zoner.
